Commissioner Murman Prepares District for 2018 Hurricane Season with "Get Ready!" Campaign

The most important thing that you can do is to be informed and prepared! Disaster prevention includes both being prepared as well as being safe. So County Commissioner Sandy Murman says Get Ready! With this special edition.

Disaster Prevention should include:

- [Developing a Family Plan](#)
- [Creating a Disaster Supply Kit](#)
- [Having a Place to Go](#)
- [Securing your Home](#)
- [Having a Pet Plan](#)

One of the most important decisions you will have to make is "Should I Evacuate?" If you are asked to evacuate, you should do so without delay. But unless you live in a coastal or low-lying area, an area that floods frequently, or in manufactured housing, it is unlikely that emergency managers will ask you to evacuate. That means that it is important for you and your family to **HAVE A PLAN** that makes you as safe as possible in your home. **Disaster prevention** includes modifying your home to strengthen it against storms so that you can be as safe as possible. It also includes having the supplies on hand to weather the storm. The suggestions provided here are only guides. You should use common sense in your disaster prevention.
